

# Geomatics Technician

## Fort St. John

---

### Why Choose Midwest?

Midwest Surveys is a 100% employee owned company that values its people! Celebrating over 65 years in the industry, we have been ranked as one of the 50 Best Employers in Canada and a top health benefits provider. We are a professional land surveying firm providing geomatics services to the oil and gas industry and municipalities through our ten offices in Saskatchewan, Alberta, and British Columbia.

We actively support local communities and pride ourselves on providing an outstanding work environment.

### What's in it for me?

- Competitive salary, employee-ownership opportunities and industry leading benefits;
- Casual work atmosphere with an approachable, hands-on management team that takes time to celebrate successes; and
- Exposure to a variety of oil and gas survey projects in a dynamic environment.

### Position Description:

In this office position, you will be responsible for survey computations and plan preparation for oilfield and cadastral surveys. If you consider yourself a problem solver with an aptitude for mathematics and land surveying, this role will keep you challenged and draw on those strengths. The job requires more than analytical effort. You will receive raw data straight from the field, process it, and act as the go-between linking the drafting department with Land Surveyors and Project Managers. Clients will count on you to perform in the center of the action.

### Qualifications:

- A combination of general survey experience and post-secondary training in geomatics is preferred;
- An understanding of numerous computer programs;
- Proficiency in survey software including MicroSurvey and Trimble Business Centre; and
- Field experience as well as previous experience in a similar role is an asset.

### Competencies:

- Good communication skills and a strong sense of professionalism;
- Keenness to work in a high-volume team environment;
- Strong mathematical and computer operating skills;
- Demonstrated organizational skills and attention to detail; and
- Ability to imagine new solutions and improvements on existing processes and procedures.

To apply for this posting, please e-mail your cover letter and resume to [recruitment@midwestsurveys.com](mailto:recruitment@midwestsurveys.com). **Please quote 'Job Number 3048' in the subject line.** For more information on working with Midwest Surveys please visit the Careers section of our website, [www.midwestsurveys.com](http://www.midwestsurveys.com).

All applications will be kept confidential  
Only those selected for an interview will be contacted
