

Geomatics Technician Calgary

Why Choose Midwest?

Midwest Surveys is a 100% employee owned company that values its people! Celebrating over 65 years in the industry, we have been ranked as one of the 50 Best Employers in Canada and a Top Employer in Alberta. We have also been recognized as a top health benefits provider and have been named the Best Workplace in Alberta for Health and Safety.

Midwest Surveys actively supports local communities, charities and is committed to a high level of ethics. We pride ourselves on providing an outstanding work environment!

Geomatics Technician Role:

Your duties will include but are not limited to:

- Work closely with our team on field data processing, job progress tracking as well as survey plan checking and computations
- Liaise closely with project management to effectively provide clients with excellent service
- Contribute to the examination of existing processes to determine what if any changes can be made to increase efficiencies in the field and in the office
- Follow all Midwest Surveys health and safety protocols and is committed to ongoing learning in this area
- Perform other related duties as assigned by the Project Manager, Land Surveyor, or Office Manager

Qualifications:

Preference will be given to candidates who hold a degree / diploma in Geomatics or equivalent combinations of education and experience. The successful candidate will have:

- 5+ years of experience in the Survey industry, similar role preferred
- Understanding of survey methodologies, land surveying acts and regulations as they apply to the practice of Land Surveying
- A working knowledge of how GPS and total stations are used in the collection of survey data
- Proficient in the use of survey software including MicroSurvey

Key Competencies and Behavioural Attributes:

- Good communication skills and a strong sense of professionalism when interacting with crews, drafting staff, Land Surveyors and clients
- Strong mathematical and computer operating skills
- Demonstrated organizational skills and attention to detail
- Demonstrated accuracy, neatness and professionalism in the development of survey products
